## PYDAH COLLEGE OF PHARMACY

(Approved by PCI, AICTE and Affiliated to Andhra University, V.S.P)  
Kakinada-Yanam Road, PATAVALA-533461, E.G.Dist, A.P

## ABOUT COLLEGE:

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kaknada is to nurture "A Promising Agency of Technological & Innovative Development".

### Courses Offered:

- B.Pharmacy - 4 Years
- M.Pharmacy
- Pharmaceutical Analysis
- Pharmaceutical Q.A.
- Pharmaceutics
- Pharm.D
- Pharm.D (PB)

## ABOUT IPA :

The Indian Pharmaceutical Association (IPA) is the National body representing over 1 million pharmacists and pharmaceutical scientists from Industry, Academia, Regulatory, Hospital and Community Pharmacy and work to meet the India's health care needs. IPA is a non-governmental organization that has been in official relations with the FIP and WHO. IPA is member of Drug Technical Advisory Board (DTAB), Ministry of Health and Family Welfare, Government of India. IPA has been awarded "Best Professional Organisation Award -2015" by Indian Association Congress.

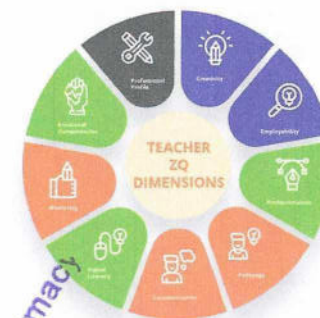

## OBJECTIVES OF THE PROGRAMME

A One Week Faculty Development Programme is being organized on Innovative Teaching Learning Practices & Research at Pydah college of Pharmacy. FDP is intended to train the early career researchers, young academicians, and other participants to upgrade their knowledge and skills in outcome-based teaching and research.

Innovative teaching is the process of proactively introducing new teaching strategies and methods into the classroom. The purpose of introducing these new teaching strategies and methods is to improve academic outcome.

## TOPICS :

- Personalized Learning
- Project-Based Learning (PBL)
- Inquiry-Based Learning
- Ask Open-Ended Questions
- Peer Teaching
- Blended Learning
- Feedback
- Active Learning

### **Objective:**

A One Week Faculty Development Programme conducted on Innovative Teaching Learning Practices & Research at Pydah college of Pharmacy. FDP is intended to train the early career researchers, young academicians, and other participants to upgrade their knowledge and skills in outcome-based teaching and research.

Innovative teaching is the process of proactively introducing new teaching strategies and methods into the classroom. The purpose of introducing these new teaching strategies and methods is to improve academic outcomes and address real problems to promote equitable learning.

### **Outcome of the Programme:**

Prof. K.Srinivasa rao explained very well about the Innovative Teaching Learning Practices & Research. Faculty gave feedback and told that this session was useful and to develop the students with different methodologies of teaching.

Pydha College of Pharmacy had successfully organized A One Week Faculty Development Program on Teaching Learning Practices & Research

## About College :

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development".

## Courses Offered:

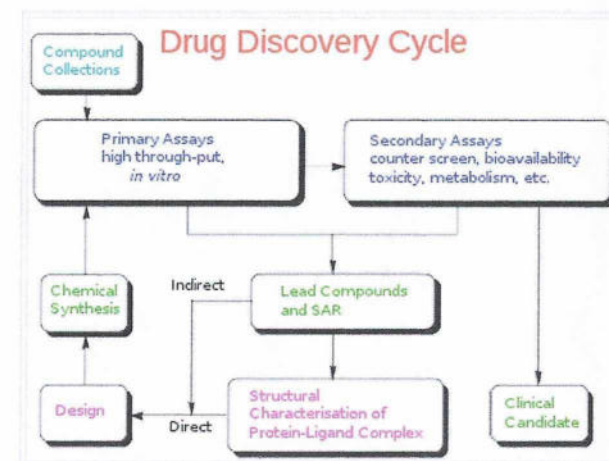

- B.Pharmacy - 4 Years
- M.Pharmacy
- Pharmaceutical Analysis
- Pharmaceutical Q.A.
- Pharmaceutics
- Pharm.D
- Pharm.D (PB)

## Objective of the Programme :

This FDP programme is organized by Pydah College of Pharmacy to have the knowledge about drug discovery among the faculty. The goal of a preclinical drug discovery program is to deliver one or more clinical candidate molecules, each of which has sufficient evidence of biologic activity at a target relevant to a disease as well as sufficient safety and drug-like properties so that it can be entered into human testing. Comprehensive understanding of a human disease at the molecular level is needed to guide drug discovery efforts. Such understanding may lead to new ideas of novel drug targets and of how to interfere in the disease process in the human body.

## Topics :

- ❖ Early Drug Discovery
- ❖ Pre-Clinical Phase
- ❖ Clinical Phases and Regulatory Approval

### **Objective:**

Pydha College of Pharmacy had successfully organized A One Week Faculty Development Programme on Research Methodology in Drug Discovery & Life Science. Comprehensive understanding of a human disease at the molecular level is needed to guide drug discovery efforts. Such understanding may lead to new ideas of novel drug targets and of how to interfere in the disease process in the human body.

### **Topics Covered:**

- ❖ Early Drug Discovery.
- ❖ Pre-Clinical Phase
- ❖ Clinical Phases and Regulatory Approval

### **Outcome of the Programme:**

Discovery involves a number of processes like target identification and validation, hit identification, lead generation and optimization and finally the identification of a candidate for further development. Development, on the other hand, includes optimization of chemical synthesis and its formulation, toxicological studies in animals, clinical trials and eventually regulatory approval
