PYDAH COLLEGE OF PHARMACY

(Approved by PCI, AICTE, and Affiliated to Andhra University, VSKP)
Yanam Road, PATAVALA, KAKINADA-533461, E.G. Dist, A.P

About the College :

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

Courses Offered:

- B.Pharmacy (4 Years)
- M.Pharmacy
- Pharmaceutical Analysis
- Pharmaceutical Q.A
- Pharmaceutics
- Pharm.D
- Pharm.D (PB)

Out Come of the Programme :

To give basic knowledge about structure and functions of cellular components and these interaction with drugs.

For any Queries Contact:
princpharma@pydah.edu.in

Topics of the Programme :

- ☆ To explain receptor signal transduction process.
- ☆ .To understand molecular pathway affected by drugs.
- ☆ Application of knowledge in drug discovery.
- ☆ To understand molecular biology techniques to apply in pharmacology

Professor

Dept. of Pharmaceutical Chemistry

Contact number: 9912441522

Co-Ordinator: Ms. O. Tejaswini

Assistant Professor

Dept. of Pharmacology

Venue: Seminar hall, Pydah College of Pharmacy

Objective:

Develop a comprehensive understanding of the principles and applications of nanotechnology in the field of biotechnology, including the design, synthesis, and characterization of nanomaterials for biomedical applications. Gain proficiency in advanced techniques used in nano biotechnology, such as nanofabrication, nanoparticle synthesis, and nanocharacterization methods. Acquire knowledge of the unique properties of nanomaterials and their potential for targeted drug delivery biosensing, tissue engineering, and imaging in biomedical settings. Understand the ethical considerations and regulatory frameworks surrounding the use of nanotechnology in biotechnology, including safety and environmental concerns. Demonstrate the ability to critically analyse and interpret research findings in nano biotechnology, and effectively communicate the potential applications and implications of nanotechnology in the field of biotechnology to a diverse audience.

Learning outcomes:

- Develop a deep understanding of the fundamental principles and concepts of Nanotechnology as applied to Biotechnology, including the synthesis, characterization, and manipulation of Nano materials for biomedical applications.
- Gain proficiency in advanced techniques used in Nano biotechnology, such as nanoparticle fabrication, surface functionalization, and Nanoscale characterization methods.

Education & Beyond

-
- Acquire knowledge of the diverse applications of Nano biotechnology in areas such as drug delivery, diagnostics, biosensing, tissue engineering, and bioimaging.
 - Understand the challenges and considerations related to the safety, toxicity, and regulatory aspects of Nano materials used in Biotechnology.

- Pharm.D (PB)

OBJECTIVE OF THE PROGRAMME

- The objective is to gain knowledge of Develop a comprehensive understanding of the principles and theory underlying X-ray diffraction (XRD) techniques, including the interaction of X-rays with matter and the principles of crystallography.
- Gain proficiency in the operation of XRD instruments, including sample preparation, alignment, and data collection using different types of detectors.
- Acquire knowledge of data analysis techniques for XRD, such as peak identification, determination of crystal structures and lattice parameters, and quantitative phase analysis.
- Understand the applications of XRD in various fields, including materials science, geology, chemistry, and pharmaceuticals, and the role of XRD in studying crystallographic structure and phase transformations.
- Develop critical thinking skills to evaluate and interpret XRD data, troubleshoot experimental challenges, and effectively communicate findings through written reports and presentations.

TOPICS OF THE PROGRAMME

1. Gain proficiency in operating XRD instruments, including sample preparation, alignment, and data collection using different types of detectors and X-ray sources.
2. Acquire practical skills in data analysis and interpretation of XRD patterns, including peak identification, determination of crystal structures, lattice parameters, and quantitative phase analysis.
3. Understand the applications of XRD in various scientific disciplines, such as materials science, geology, and pharmaceuticals, and its role in characterizing crystallographic structures, phases, and defects.

PROGRAM REPORT

NAME OF EVENT: A Two Week Certificate program on "X RAY DIFFRACTION"

DATE: 22.02.2021 to 07.03.2021

Resource Person: Mr. L. Suresh
Assistant Professor
Dept. of Pharmaceutical Chemistry
Contact number: 8886429212

Co-Ordinator: Mr. K. Krishna
Assistant Professor
Dept. of Pharmaceutical Chemistry

Venue: Seminar hall, Pydah College of Pharmacy

Objectives:

- Develop a comprehensive understanding of the principles and theory underlying X-Ray Diffraction (XRD) techniques, including the interaction of X-rays with matter and the principles of crystallography.
- Gain proficiency in the operation of XRD instruments, including sample preparation, alignment, and data collection using different types of detectors.
- Acquire knowledge of data analysis techniques for XRD, such as peak identification, determination of crystal structures and lattice parameters, and quantitative phase analysis.

Learning outcomes:

1. Gain proficiency in operating XRD instruments, including sample preparation, alignment, and data collection using different types of detectors and X-ray sources.
2. Acquire practical skills in data analysis and interpretation of XRD patterns.
3. Understand the applications of XRD in various scientific disciplines.

Topics of the Programme

- Claim drafting technique and methodologies
- Specification, drafting description,
- Summary background/abstract for invention.
- Analysis of inventions.
- Strategies filing decisions.
- Patent drafting basics.
- Sample cases of patent drafting.
- Understand career opportunities.

ABOUT COLLEGE

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

Courses Offered:

- * B.Pharmacy (4 Years)
- * M.Pharmacy
 - Pharmaceutical Analysis
 - Pharmaceutical Q.A
 - Pharmaceutics
- * Pharm.D
- * Pharm.D (PB)

OBJECTIVE OF THE PROGRAMME

The main objective is to make students able to understand the theoretical basis and operations of modern instruments used in chemical analysis and apply them in analysis of real samples.

Organizing Committee:

Lokesh Kumar

Associate Professor, Pharmaceutics

T. Yedu Kondalu

Associate Professor, Pharmaceutics

For any Queries Contact:
princpharma@pydah.edu.in

TOPICS OF THE PROGRAMME

1. Describe various types of instrumental techniques used in chemistry.
2. Understand the theoretical basis of chemical instruments.
3. Identify the components and uses of various parts of chemical instruments.
4. Apply use of instruments in chemical analysis.
