The training and placement cell of Pydah College of pharmacy conducted a program on ICT skills on 09.11.20 Our college. These are the minimum computer skills required by any graduate. Considering it as important the session was arranged. The trainers gave their best to impart these basic skills. Not only teaching they gave practice sessions to check what the students understood. It was full day session and later on the trainers cleared their doubts. Students were happy and requested to arrange more of these job skills session for their career.

The following topics were broadly discussed.

- Students were taught about computing applications "Applications of ICT (Information Communication Technology) - on pharmaceutical product marketing" in pharmacy and focused learning was provided on ICT.
- The session was conducted to improve the skills of the students in facing new challenges in the professional scenario.

The Pydah College of pharmacy conducted a special program on Life skill development workshop on "Stress Management and Confidence Building on 23.11.2020 at our college in Seminar hall. The program was initiated by our Principal with a motivational speech. After the speech the resource person spoke on how to maintain good health by practicing "Stress Management and Confidence Building"

III B.Pharmacy students attend the Program. The session was conducted with the intention of improving life skills. Students were taught about the importance of life style in preventing diseases by maintaining proper fitness and leading a healthy life as part of the life skills in Fitness and Healthy life style programme. Few activities and games were conducted relating to the healthy life style. The session was concluded with the vote of thanks.

Objectives & Learning outcomes:

A healthy lifestyle is a way of living that lowers the risk of being seriously ill or dying early. Not all diseases are preventable, but a large proportion of deaths, particularly those from coronary heart disease and lung cancer, can be avoided.

Being physically active can improve your brain health, help manage weight, reduce the risk of disease, strengthen bones and muscles, and improve your ability to do everyday activities. Adults who sit less and do any amount of moderate-to-vigorous physical activity gain some health benefits.
