ABOUT COLLEGE

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

Courses Offered:

- * **B.Pharmacy (4 Years)**
 - **Pharmaceutical Analysis**
 - **Pharmaceutical Q.A**
 - **Pharmaceutics**
- * **Pharm.D**
- * **Pharm.D (PB)**

OBJECTIVE OF THE PROGRAMME

The objective of conducting a physicochemical study on the interaction of water-soluble vitamins with hupugum and guar gum is to understand the nature of their interaction, assess the stability of the vitamin hupugum and guar gum complex and evaluate the potential impact on the physicochemical properties of both the vitamins and hupugum and guar gum

TOPICS OF THE PROGRAMME

- ★ Compatibility assessment
- ★ Complex formation
- ★ Physicochemical characterization
- ★ Solubility enhancement
- ★ Formulation optimization
- ★ Application in product development

OUTCOME OF THE PROGRAMME

- By accomplishing these objectives, a physicochemical study on the interaction of water-soluble vitamins with hupugum and guar gum aims to provide a scientific understanding of their compatibility, complex formation, stability and potential applications in pharmaceutical or nutraceutical formulations.
- This knowledge can guide formulation development, optimize product performance and ensure the delivery of effective and stable water-soluble vitamin formulations.

ABOUT COLLEGE

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

Courses Offered:

- * B.Pharmacy (4 Years)
- * M.Pharmacy
 - Pharmaceutical Analysis
 - Pharmaceutical Q.A
 - Pharmaceutics
- * Pharm.D
- * Pharm.D (PB)

OBJECTIVE OF THE PROGRAMME

The objective of studying phytochemical constituents and chemosystemic significance is to understand the chemical composition and distribution of compounds in plants and how this information can be used to classify and study the relationships between different plant species. Phytochemical constituents refer to the various chemical compounds that occur naturally in plants. These compounds can include alkaloids, flavonoids, terpenoids, phenolics and many others. Phytochemicals have diverse functions in plants such as defense against predators and diseases, attraction of pollinators and regulation of growth and development.

TOPICS OF THE PROGRAMME

- ★ Importance of Phytochemical constituents
- ★ Determination of structures of the compounds
- ★ Isolation methods
- ★ Chemotaxonomic significance
- ★ Growth and development of plant species

OUTCOME OF THE PROGRAMME

- The program could lead to the identification and characterization of various phytochemicals in different plant species
- Evaluation of the biological activities of different phytochemicals
- Exploration of chemosystematic relationships between different plant species
- Development of new drugs and natural products
- Advancement of scientific knowledge about the diversity

| Date of Activity | 30.10.2021 |
| Organized By : | Pydah College of Pharmacy |
| Venue: | Pydah College of Pharmacy |

Objective of the Program:

The objective of studying phytochemical constituents and chemosystemic significance is to understand the chemical composition and distribution of compounds in plants and how this information can be used to classify and study the relationships between different plant species. Phytochemical constituents refer to the various chemical compounds that occur naturally in plants. These compounds can include alkaloids, flavonoids, terpenoids, phenolics and many others. Phytochemicals have diverse functions in plants, such as defense against predators and diseases, attraction of pollinators and regulation of growth and development.

Topic covered:

- ✓ Importance of Phytochemical constituents
- ✓ Determination of structures of the compounds
- ✓ Isolation methods
- ✓ Chemotaxonomic significance
- ✓ Growth and development of plant species

Yanam Road, PATAVALA, KAKINADA-533461, E.G.Dt

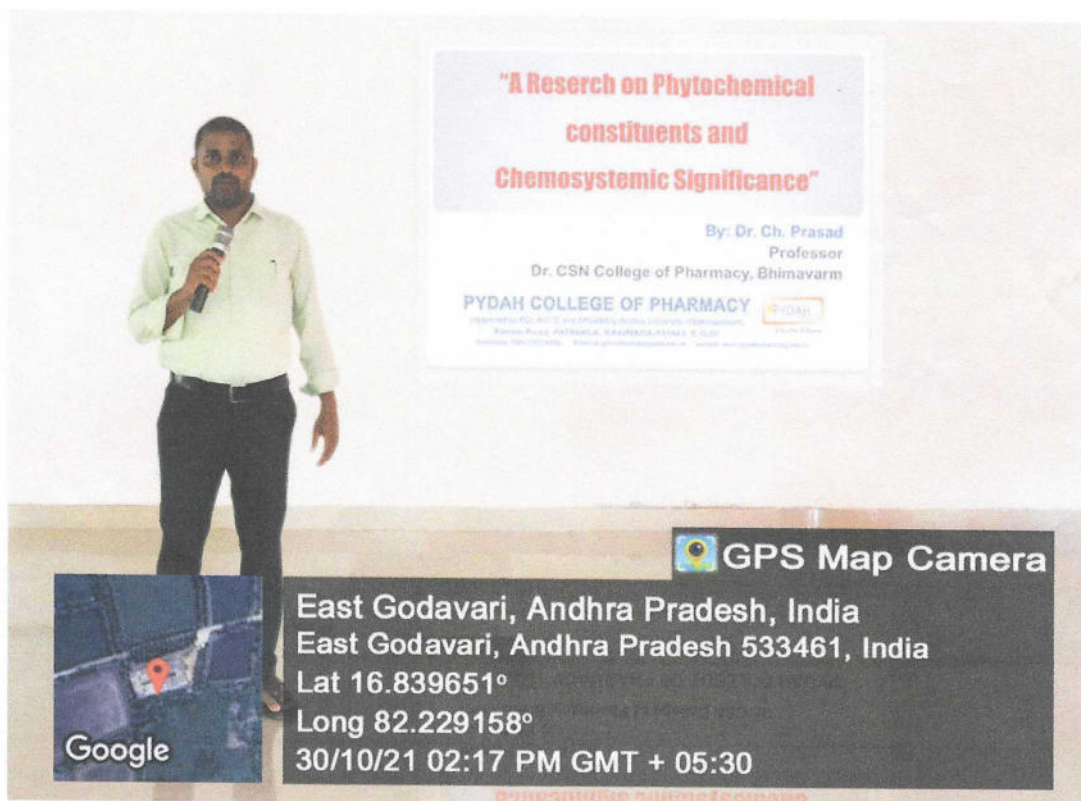

Telephone: 0884-2315344/45 Email id: princpharma@pydah.edu.in website: www.pydahpharmacy.edu.in

Education & Beyond

Outcome of Program:

- The program could lead to the identification and characterization of various phytochemicals in different plant species.
- Evaluation of the biological activities of different phytochemicals
- Exploration of chemosystematic relationships between different plant species
- Development of new drugs and natural products
- Advancement of scientific knowledge about the diversity.

Students and faculties have participated in the seminar on **A research on Phytochemical constituents and Chemosystemic significance** on 30.10.2021.

ABOUT COLLEGE

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

Courses Offered:

- * **B.Pharmacy (4 Years)**
 - **Pharmaceutical Analysis**
 - **Pharmaceutical Q.A**
 - **Pharmaceutics**
- * **Pharm.D**
- * **Pharm.D (PB)**

OBJECTIVE OF THE PROGRAMME

An awareness program on the COVID-19 virus is to educate individuals, communities, and organizations about the virus, its spread, and the necessary measures to prevent its transmission. The program aims to provide accurate and up-to-date information on the virus, its symptoms and how it can be prevented. This aims to empower individuals and communities with the knowledge and resources necessary to protect themselves and others from the virus and to help in decreasing the spread of the pandemic.

TOPICS OF THE PROGRAMME

- What is COVID-19 and how does it spread?
- Common symptoms of COVID-19 and how to recognize them.
- The importance of testing and early detection of COVID-19.
- Personal hygiene practices to prevent the spread of COVID-19
- Physical distancing and avoiding large gatherings as effective measures to reduce the spread of COVID-19.
- COVID-19 vaccines, their safety efficacy and availability and encouraging people to get vaccinated.
- Guidelines for managing COVID-19 positive cases, including isolation and quarantine measures.
- Addressing myths and misinformation about COVID-19.
- Providing mental health resources and support to individuals and communities.
- The economic and social impact of COVID-19 and measures to mitigate them.

OUTCOME OF THE PROGRAMME

- Educating people about the symptoms of COVID-19 and the importance of early detection and reporting.
- Raising awareness about the modes of transmission of the virus and the importance of personal hygiene, physical distancing and wearing masks to prevent its spread.
- Encouraging individuals to adopt healthy habits such as regular hand washing and covering their mouths and noses while coughing or sneezing.
- Disseminating information on the different COVID-19 vaccines available, their safety and efficacy and encouraging people to get vaccinated.
- Providing support and resources to individuals and communities affected by the pandemic, including mental health resources and financial assistance.

COURSES OFFERED:

- B.Pharmacy (4 Years)
- M.Pharmacy
Pharmaceutical Analysis
Pharmaceutical Q.A
Pharmaceutics
- Pharm.D
- Pharm.D (PB)

OBJECTIVE OF THE PROGRAMME

The primary objective of the procedure for drug approval in different countries is to ensure that the medicines being used for treatment are safe, effective, and of high quality. The process involves a series of rigorous scientific evaluations and regulatory reviews that aim to assess the safety, efficacy and quality of drugs before they can be made available to patients.

For any Queries Contact:
princpharma@pydah.edu.in

OUTCOME OF THE PROGRAMME

The outcome of the drug approval process is the approval of safe, effective and high-quality drugs that can improve the health outcomes of patients. The drug approval process is a critical component of public health and it helps to ensure that patients have access to medicines that can treat and prevent diseases.

TOPICS OF THE PROGRAMME

- * Preclinical studies
- * Clinical trails
- * Regulatory Requirements
- * Manufacturing Standards
- * Drug Labelling
- * Post Marketing Surveillance

Program Report

| | |
|---------------------------|---|
| Name of the Event: | Research on Procedure for Drug Approval in Different countries. |
| Resource Person | Dr. C. Raja Ram, Associate Professor, P Rami Reddy Memorial College of Pharmacy, Utkur, Kadapa. |
| Date of Activity | 18.12.2021 |
| Organized By : | Pydah College of Pharmacy |
| Venue: | Pydah College of Pharmacy |

Objective of the Program:

The primary objective of the procedure for drug approval in different countries is to ensure that the medicines being used for treatment are safe, effective and of high quality. The process involves a series of rigorous scientific evaluations and regulatory reviews that aim to assess the safety, efficacy and quality of drugs before they can be made available to patients.

Topic covered:

- ✓ Preclinical studies
- ✓ Clinical trails
- ✓ Regulatory Requirements
- ✓ Manufacturing Standards
- ✓ Drug Labelling
- ✓ Post Marketing Surveillance.

Pharmaceutical Analysis Q.C

Pharmceutics

Objectives of the Programme :-

The objectives of the regulatory environment and clinical trials in Southeast Asia are to ensure that drugs are safe, effective, and of high quality before they are approved for use in the region. The regulatory environment and clinical trials play a crucial role in protecting public health, promoting innovation, and providing access to new and effective medicines for patients.

Topics of the programme :-

- Regulatory requirements
- Good clinical practice
- Good laboratory practice
- Good manufacturing practice
- Ethics in clinical reasearch
- Clinical trail design and conduct
- Post marketing surveillance

Outcome of the Programme:-

The regulatory environment and clinical trials in Southeast Asia have a significant impact on public health and the pharmaceutical industry. These outcomes are essential to ensuring that patients have access to safe, effective and high-quality medicines that can improve their health outcomes.

OUT COME OF THE PROGRAMME

The Novel Approach of Fast Dissolving Oral Films offers numerous potential benefits in the field of drug delivery, which could lead to improved patient outcomes and quality of life.

TOPICS OF THE PROGRAMME

- Introduction to fast dissolving oral films
Formulation development and optimization
- Types of polymers and their properties used
- Techniques for the preparation of fast dissolving oral films
- Pharmacokinetics and pharmacodynamics of drugs
- Applications of fast dissolving oral films
- Regulatory and patent issues

OBJECTIVES OF THE PROGRAMME

A novel approach for fast dissolving oral films is to provide a convenient and effective way of delivering drugs to the body. Fast dissolving oral films are a type of oral dosage form that dissolves quickly in the mouth and releasing the drug for absorption into the bloodstream. The primary aim of this approach is to improve patient compliance by making the drug delivery process more convenient, comfortable and efficient. It is to provide a safe, effective and patient-friendly method of drug delivery that improves therapeutic outcomes and enhances patient quality of life.

REGISTRATION FORM:

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

Courses Offered:

- B.Pharmacy - 4 Years
- M.Pharmacy
Pharmaceutical Analysis
Pharmaceutics
- Pharm.D
- Pharm.D (PB)

OBJECTIVES OF THE PROGRAMME

A regulatory GMP audit in pharmaceutical companies is to ensure that the company is in compliance with current Good Manufacturing Practice (cGMP) regulations. The primary purpose of cGMP regulations is to ensure that pharmaceutical products are safe, effective and of high quality. A regulatory GMP audit helps to identify and correct any deficiencies or non-compliance issues that may exist within the manufacturing process, which could compromise the safety or quality of the finished product. It is to ensure that pharmaceutical products are manufactured in compliance with cGMP regulations and are safe and effective for their intended use.

OUTCOME OF THE PROGRAMME

The role of regulatory GMP audit in pharmaceutical companies can be significant for both the company and the regulatory agency conducting the audit. The outcome of the role of regulatory GMP audit in pharmaceutical companies can have significant positive impacts on the quality of pharmaceutical products, the reputation of the company and its compliance with regulatory requirements.

TOPICS OF THE PROGRAMME

- * Overview of regulatory GMP audit and its importance
- * Regulatory agencies and guidelines governing GMP audits
- * Preparation for a regulatory GMP audit, including self-assessment and mock audits
- * Corrective and preventive actions
- * Recent trends and developments in regulatory GMP audit
- * The impact of GMP audits on pharmaceutical companies
- * Risk management and compliance monitoring

ABOUT COLLEGE

Pydah College of Pharmacy is yet another Jewel in the Crown of Pydah Educational Group and it was established in 2007. The Institute came into existence to extend the rich experience of Pydah group in education to the field of Professional Education. The Basic Objective in the establishment of "Pydah College of Pharmacy", Kakinada is to nurture "A Promising Agency of Technological & Innovative Development"

Courses Offered:

- B.Pharmacy (4 Years)
- M.Pharmacy
- Pharmaceutical Analysis
- Pharmaceutical Q.A
- Pharmaceutics
- Pharm.D
- Pharm.D (PB)

OBJECTIVE OF THE PROGRAMME

The objective is to educate and inspire individuals, particularly students and budding entrepreneurs, about the opportunities and challenges in starting and running life science-related businesses. This program is designed to foster an entrepreneurial mindset, provide essential knowledge about entrepreneurship in the life sciences sector, and encourage innovation and the development of life science start-ups.

TOPICS OF THE PROGRAMME

- Introduction to entrepreneurship
- Overview of national life sciences
- Opportunities and challenges in life sciences entrepreneurship
- Market research and analysis
- Intellectual property (IP) and regulatory compliance
- Technology transfer and innovation
- Legal and contractual aspects
- Ethics and compliance
- Healthcare and biotechnology ecosystem
- Global perspective

OUTCOME OF THE PROGRAMME

- The outcomes of an entrepreneurship awareness programme (EAP) in national life sciences can have a significant impact on participants and the broader life sciences ecosystem. These outcomes are often multifaceted and can benefit individuals, organizations, and society as a whole.
